Course Description:

This course offers students a comprehensive understanding of Western Ancient and Medieval Thought, focusing on the intellectual foundations that shaped political ideas and institutions during these periods. Students will explore the evolution of political theory, governance, and societal structures, gaining insights into how these ideas significantly influenced the development of Western civilization. Additionally, students will critically examine the political institutions, their workings, and key features of these periods. By studying the works of prominent philosophers, political theorists, and the historical contexts that influenced their thinking, students will develop a deeper understanding of the intellectual roots of modern Western political thought.

Course Prerequisite: NIL Course Outcomes:

CO No.	Expected Outcome	Learning Domains
1	Understand the key historical events and contexts that influenced ancient and medieval political thought.	R
2	Comprehend the foundational concepts and theories proposed by ancient and medieval political thinkers.	U
3	Critically examine the evolution of political thought and its impact on Western civilization.	A
4	Apply theoretical frameworks to analyze and evaluate political structures, and governance systems, prevalent in ancient and medieval civilizations.	An
5	Assess the contributions of ancient and medieval political thought to contemporary political discourse and governance practices.	E
